### BEGINNER

Basic commands of 'sit', 'down', 'stand', and 'come'. As a class, we focus on proper socialization of each pup and providing owners with the tools to handle more difficult behaviors such as jumping, biting, excessive barking and much more.

### INTERMEDIATE

Fine tuning the behaviors and increase the skill set. Information that was covered and learned in beginner is now more in depth and building direction (with distractions and distance).

Focus is also on strengthening the bond between pet and pet parent.

### ADVANCED

Taking our dogs to the next level of being great! Looking for precision, improved listening skills, more behaviors offered and little to no treats. Introduction of obstacle training for more mental and physical stimulation for both the dog and the parent.
