

BENEFITS

Each **Preventative Care Plan** provides veterinary services for one year and can be upgraded to a different plan when the need arises. Some benefits universal to all **Preventative Care Plans** are:

- **Unlimited FREE office visits and physical exams, with convenient hours**
- **All yearly recommended vaccinations**
- **12 affordable monthly payments**
- **Additional discounts on eligible items that are not included in the plan**

The cost for each **Preventative Care Plan** is divided into 12 equal monthly payments. **Wheaton Animal Hospital** wants to be the primary caregiver for your special friend throughout every stage of life and we will strive to make that both convenient and affordable for you.

Ask one of our team members which **Preventative Care Plan** is right for your pet and enroll today!

Petly™ Plans

PREVENTATIVE CARE PLAN OVERVIEW

Dogs age at a much faster rate than people. For every year that you age, your dog can age from 6 to 8 years.

Your pet's medical and nutritional needs change as their body ages. A **Preventative Care Plan** helps manage their evolving health care needs by monitoring vital organ function and detecting problems early, before they become life threatening.

Every Adult Preventative Care Plan offered by **Wheaton Animal Hospital** includes all necessary examinations, vaccines, laboratory tests and other services essential to protect your pet against illness and disease. An upgraded plan is designed to provide additional services like routine dental cleanings, radiographs and more extensive blood work. Our goal is to keep your pet healthy and happy during the prime years of their life.

By age three, more than 80 percent of dogs show signs of gum disease, which if left untreated, can lead to serious illness. Give your dog essential care, plus active prevention, by selecting the plan that provides dental cleaning and early screenings for common diseases.
