

BENEFITS

Each Preventative Care Plan provides veterinary services for one year and can be upgraded to a different plan when the need arises. Some benefits universal to all Preventative Care Plans are:

- Unlimited FREE office visits and physical exams, with convenient hours
- All yearly recommended vaccinations
- 12 affordable monthly payments
- Additional discounts on eligible items that are not included in the plan

The cost for each Preventative Care Plan is divided into 12 equal monthly payments. Wheaton Animal Hospital wants to be the primary caregiver for your special friend throughout every stage of life and we will strive to make that both convenient and affordable for you.

Ask one of our team members which Preventative Care Plan is right for your pet and enroll today!

Petly™ Plans

PREVENTATIVE CARE PLAN OVERVIEW

Puppies inherit a natural immunity from their mother that protects them from birth until about 6 weeks of age.

After 6 weeks, your pet depends on you to continue that protection until their own immune system is fully developed. A **Preventative Care Plan** is designed to continue that protection by providing all services necessary to carry your young pet through the important first year of life.

Preventative, routine health care is the key to a longer, happier life for your young pet. The puppy plan offered by **Wheaton Animal Hospital** includes all necessary examinations, vaccines, lab work and other tests necessary in the first year of life. If your pet has not been spayed or neutered, there is a plan that includes the pre-surgical blood work, hospitalization for the day, surgical procedure, and a re-check examination.

Establish an early habit of preventative care for your puppies less than 6 months of age. Remember, dogs age 6-8 years for each one of ours. Start them off on the right paw with the right plan.

For maximum protection, we strongly recommend you enroll your pet in a Petly Plan between 8 weeks and 6 months of age.
